About Jazmine's Journey

Jazmine's Journey is a 501(c)(3) nonprofit supporting families affected by childhood cancer. Founded in honor of Jazmine Reiter, who passed away from Infant Leukemia at 16 months old, our mission is to provide financial assistance, emotional support, and community resources to families facing pediatric cancer. In 2024, we expanded our impact through fundraising events, peer support groups, and direct aid for bill payment assistance, travel, and daily essentials. Through our efforts, we strive to bring hope, relief, and a sense of community to families during their most challenging times.

Family Support 2024

This year, Jazmine's Journey proudly extended our support to over 17 families, offering hope, comfort, and relief during their most challenging times. Through your generosity, we've been able to make a meaningful difference in the lives of pediatric cancer families in several ways:

Family Support: Provided assistance to over 17 families navigating pediatric cancer.

Meals for Oncology Units:

- Donated lunch for the entire pediatric oncology floor at Phoenix Children's Hospital (PCH).
- Provided dinner for the pediatric oncology floor at Thunderbird Children's Hospital.

Hospital Donations:

- Contributed \$200 in cafeteria gift cards to families at Thunderbird Children's Hospital.

- Donated over \$100 worth of snacks to the Thunderbird Pediatric Oncology Clinic.

Amazon Wish List Support:

- Purchased and delivered items from wish lists for more than 17 children undergoing cancer treatments.

Family Events:

- Hosted a free Pancake Breakfast for families.
- Organized a heartwarming Christmas Party for pediatric cancer families.

Wellness and Emotional Support:

- Sponsored a Yoga Class for families to relax and reconnect.
- Grief Zoom Support Session to assist families coping with loss.

Pediatric Cancer Research

Jazmine's Journey proudly donated \$2,500 to Steele Children's Research Center in honor of Jazmine, supporting vital pediatric cancer research. Funding for childhood cancer research is crucial, as it leads to better treatments, improved survival rates, and hope for families facing a diagnosis. Without adequate funding, progress slows, limiting advancements in life-saving therapies and leaving children with fewer options. Our goal for 2025 is to double our impact by raising \$5,000 for pediatric cancer research, ensuring more children have access to innovative treatments and a brighter future.
